In the interest of honoring the relationship between the Animal Care Group/Oswego Animal Physiotherapy and Rehabilitation and our referring Veterinarians, The Parkway Veterinary Hospital at Animal Care Group will not be able to provide veterinary services for patients from other general practices unless in the case of emergency. Oswego Animal Physiotherapy and Rehabilitation will not be able to provide acupuncture treatment if patient was referred to OAPR by an acupuncturist, unless explicitly requested by her/him.

Payment for services is due at the time of service/package booking. We are happy to customize treatment packages to suit both the patient's and client's well-being and budget.

Thank you for your understanding. We look forward to guiding you and your canine (or feline) companion, toward a future of comfort and enhanced quality of life!

Shannon Williams, DVM, CCRT
